

Louisville Metro Government – Cooper Chapel Rd. Section III Project

Public Hearing - October 12, 2010

Welcome

Louisville Metro Government welcomes you to tonight's Public Hearing for **Cooper Chapel Road Section III Project**. The project is studying options to extend Cooper Chapel Road from Beulah Church Road to Bardstown Road. **The purpose of the meeting is to provide information to allow continued public input on the project.**

Schedule / Process

The design process is broken into two phases, 1 (preliminary) and 2 (final). We are approaching the end of Phase 1 design, where we have the environmental analysis complete and have identified various alignment options for final public comment. Once we have received final public comments, the Project Development Team will meet to consider the public comments and reach a consensus on the preferred alignment to proceed into Phase 2 design.

Final approval of the environmental analysis document by the Kentucky Transportation Cabinet and Federal Highway Administration is expected in early 2011. While Phase 2 design could begin immediately following this approval, no funds have been authorized. Therefore, a timetable for final design and construction is indefinite.

Additional Information

The Department of Public Works & Assets has set up a project information page on the Louisville Metro web site at http://www.louisvilleky.gov/PublicWorks/Engineering/Cooper_Chapel_III.htm. All exhibits and handouts from the two previous meetings as well as information you see here tonight can be found on that site.

Comments

Please take the time to review the exhibits and ask questions. There are three ways to provide comment.

- 1) Provide comment on the next sheet, which can be placed in the box near the sign-in table as you leave tonight.
- 2) Visit the noted website.
- 3) Take this form home and submit at a later date. All written comments must be postmarked no later than November 2, 2010 to the address listed below.
